Our Mission

The mission of the Crime Victims' Institute is to:

- Conduct research to examine the impact of crime on victims of all ages in order to promote a better understanding of victimization
- Improve services to victims
- Assist victims of crime by giving them a voice
- Inform victim-related policymaking at the state and local levels.

Sexual Assault Awareness & Prevention Month

One in three Texans experience sexual assault at some point in their lifetime.

Sexual assault victims are more likely to experience certain medical conditions, as well as physical, mental, and emotional problems.

Less than 10% of victims report their experiences to police.

"Health and Well-Being: Statewide Sexual Assault Prevalence Study, Final Report"

publications/

Sexual assault happens with frequency both among the general public and on college campuses. Official data and self-report surveys have demonstrated that, among the general population, 1 in 6 women and 1 in 33 men will experience an attempted or completed rape in their lifetime (Tjaden & Thoennes, 2000). On college campuses, women face increased odds of victimization, where between 20 to 25% of women will experience unwanted sexual contact or attempted/completed rape during their time in college (Fisher, Turner, & Cullen, 2000; Franklin, 2010). This vulnerability to victimization has prompted widespread efforts toward prevention and response to sexual assault. The current issue of the Sexual Assault series provides an overview of sexual assault, prevalence data, perpetrator characteristics, risk factors and consequences of victimization for survivors.

Looking Ahead...

Victim service providers
help victims rebuild
their lives. We can help
you learn about your
legal rights and
options, cope with the
impact of crime, access
victim compensation,
develop a safety plan,
and navigate the
criminal justice and
social service systems.
